SERVICE STATION UNDER CONSTRUCTION

The number of Drayton Valley's places of business continued to grow with the addition of a new service station now being erected on the corner of 50th Street and 51st Avenue, across from Imperial Lumber.

The new service station is a White Rose station, operated by Canadian Oil. With the aid of excellent weather the company building the new service station, Nilson Construction Company, of Edmonton, is making rapid progress. The main two stall garage and office building are of block construction. One island

on the 50th Street side will serve gas, with a quite large parking area on the 51st Ave. side. The tanks for gasoline have already been buried and work of backdropping the surface will be done as soon as the ground can be packed and made ready for it.

The new service station will bring to eight the number of stations serving gas in Drayton Valley. First there was the Imperial Esso station, formerly run by John Gettings, which was operating here before the oil boom, and

taken over by C.D. Fole in early 1964, which is now called Drayton Valley Motors, and then the B.A. station, Knight Service which was started in early 1964. The others, in what we believe to be the order of their setting up business in Drayton Valley are, Purdy 99 known as Drayton 99 Service; the Royalist, now Roy-Al's Service; the second Esso station, Stewart Motors Ltd; the Texaco station, known as Roy's Texaco Service, and the Shell Station, known as Roy Stewart Motors Ltd.

CHURCH HOMECOMING & SOD TURNING

This Sunday, September 17th one of the pioneer churches of Drayton Valley will celebrate a Homecoming and Sod Turning Anniversary. The Church of God expects visitors from Saskatchewan, British Columbia and Alberta to gather at the church for services Sunday morning at 11:00 o'clock. Following morning worship congregation and guest will enjoy a Fellowship Dinner which will be catered to by the local people. At 2:30 in the afternoon Rev. Richard Schick, former pastor here during the early days of the oil boom, will be the guest speaker. Tea will be served at 4:00 o'clock in the afternoon at which time old friends may visit and renew acquaintances.

Life was not always easy for the first long term pastor Rev. Walker Wright who served the church from 1937 to 1948. At that time he didn't much cash to pay the preacher. Rev. Wright made most of his money by helping the farmers with their bookkeeping or working in the fields during the busy seasons. Meat, milk, eggs and vegetables made up part of the salary of the early preachers.

The present value had to be made on horse back or by horse and buggy. This did not stop Rev. Wright from visiting those who were slack in church attendance.

The Church of God has been helping to meet the spiritual needs of this community since 1912 when Mr. and Mrs. N.P. Dodson (parents of Mrs. Brian Lindgren) moved here and started a Sunday School in their log cabin home. Later Mr. Dodson donated land on which the early pioneers of the community erected the first church building in 1917.

An itinerant pastor Rev. S.G. McIlroy was one of the first ministers.

Life was not always easy for the first long term pastor Rev. Walker Wright who served the church from 1937 to 1948. At that time he didn't much cash to pay the preacher. Rev. Wright made most of his money by helping the farmers with their bookkeeping or working in the fields during the busy seasons. Meat, milk, eggs and vegetables made up part of the salary of the early preachers.

The present value had to be made on horse back or by horse and buggy. This did not stop Rev. Wright from visiting those who were slack in church attendance.

The Church of God has been helping to meet the spiritual needs of this community since 1912 when Mr. and Mrs. N.P. Dodson (parents of Mrs. Brian Lindgren) moved here and started a Sunday School in their log cabin home. Later Mr. Dodson donated land on which the early pioneers of the community erected the first church building in 1917.

After the discovery of oil and the boom in Drayton Valley the church building was not adequate and in 1955 funds were raised and loans secured for the erection

of the present building. On September 15, 1955 a Sod Turning Service took place. From that time to the present many people have spent hours of work building and finishing the church and parsonage.

Room does not permit a listing of all the laymen and ministers to whom the church is indebted for the forward progress of the work materially and spiritually.

People who came to this oil town found a church home in the Church of God regardless of church affiliation. All worked together for the common cause of teaching and preaching the Word of God.

Two pastors and one missionary received early training here.

Those who have come and gone with the oil industry and have worshipped at the church are scattered all over Canada. God has been good and today the church has property and equipment valued at \$46,000.00. The present indebtedness on loans is \$6,466.06.

Jack Kitchener Kerr

Jack Kerr was born in Toronto, where his father was in business. He went to school in Toronto, and then as the family moved west he attended school first in Regina, then in Saskatoon, and finally in Edmonton. After getting through school he went to work for the W.W. Arcade Company, in Edmonton, and in 1938 he signed up with the Hudson's Bay Company. This week marks the twenty fifth anniversary of his association with that far-reaching and Dominion spanning company. His first post was served at Great Bear Lake in the Northwest Territories.

He married Miss Doris Callin in Pickle Lake, in northwestern Ontario. Mr. and Mrs. Kerr have four children, Fred 13, Brenda 11, Jill 8, and Callin aged 2. Since coming to Drayton Valley they have built their own home.

While Mr. Kerr was at Great Slave Lake during the middle thirties there, and while he was serving his company at the Port St. John B.C., post the army was building the Alaska Highway.

He is a member of Board of Sessions, Drayton Valley United Church, a member of the Rotary Club, a member of Drayton Valley Athletic Association.

Football

WAINWRIGHT OWNS GRID SEASON HERE.
By Mike Gamney.

The Drayton Valley Spartans playing football at the High School level will see their first action of the season next Saturday afternoon at 2:30 p.m. on the local gridiron. The visitors in this case will be the Wainwright High School Commandos.

The new entry into the Vermilion-Vegreville High School Football League. It will be the first game of the season for both teams and promises to be an action packed contest from beginning to end.

The Spartans under the direction of Bruce Barran, Al Sayens and Hank Shimshel have shown much promise in early workouts. The nucleus of the team is made up of holdovers from last year's team squad which was also handled by Mr. Barran. So it is

in October, 1960, just prior to the store's opening here.

He married Miss Doris Callin in Pickle Lake, in northwestern Ontario. Mr. and Mrs. Kerr have four children, Fred 13, Brenda 11, Jill 8, and Callin aged 2. Since coming to Drayton Valley they have built their own home.

While Mr. Kerr was at Great Slave Lake during the middle thirties there, and while he was serving his company at the Port St. John B.C., post the army was building the Alaska Highway.

He is a member of Board of Sessions, Drayton Valley United Church, a member of the Rotary Club, a member of Drayton Valley Athletic Association.

not a case of March strangers taking up a new and difficult project. Many of the boys are familiar with Barran's design and methods and most of the boys have played together before. Therefore the group-work is pretty well in hand. Barran says he has some fine prospects on this team; boys who could go on to make outstanding ball players some day.

GREEN ACRES

(Cont. from page 5, Col. 3)

rior of Soils and Weeds Control with the Alberta Department of Agriculture, recommends September and October as the best time to take soil samples from fields which will be seeded next spring. If the samples are submitted during this period, the Soil Testing Laboratory at the University of Alberta will be able to distribute in week load and results will be available in time for the farmer to remedy deficiencies by the use of the correct fertilizer. Soil testing kits, which are necessary for this job, can be obtained from district agriculturalists or from the Field Crops Branch of the Department of Agriculture.

LOOKING AT RECREATION

(Cont. from page 6, Col. 5)

week long, a few extra coming in over the weekend. Harold Townsend, the head coach in the Bantam camp, says that he cannot figure out where all the boys are who signed up to play football early in the summer. It would seem that we have a case on our hands where a great number of boys signed up but many failed to show up. It's early in the season, however, we had approximately 120 boys in uniforms, so I guess that's not so bad after all for a town of this size.

It looks like we are off to a good season on the local gridiron. Competition at the Pee Wee level should be very keen with apparently little to choose between the three teams. Those promises to be some fine football played at the Juvenile and Bantam levels. We have a fine playing field with plenty of parking space right at the edge of town. Just what more could we ask for?

WARNING

The present football field was made available to us by Henry Delby with the understanding that there would be no crime-crowding across his place, therefore anyone coming to the ball field is kindly asked to use the road leading to the field and not cross on anyone else's property. If this rule is not adhered to a bit more closely, it could be that we might be looking for a place to play ball before long - Please don't let that happen.

BOWLING LEAGUE OPEN

From now on the Twilight Bowl will be a busy place as all bowling leagues swing into action this week. The men's, the ladies, and the mixed leagues all get their long season under way simultaneously. From the early enthusiasm displayed I would prognosticate that we are headed into the greatest bowling season ever. - With

five brand new alloys at our disposal and a full schedule all the way around. It's just got to be the best to do in the "Valley".

THE CHAPEL HOUR

(Cont. from page 7, Col. 8)

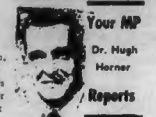

The first snap back from death to faith is to bring one's plight to the Lord Jesus Himself. It is no less to ask a question of His heart attitude is right. The Lord Jesus himself asked "Why hast thou forsaken me?" not in unbelief, but in perfect trust and submission. Resolutely we must turn from self and any known sin, from weakness or weariness, to Him in all candor and good conscience. He does not despise nor willingly afflict His own. His heart is touched with compassion because of our need. He wants us to come to Him, to obtain money in time of need. Take your doubt and difficulty to Him, as did John.

The next step is to believe the evidence He presents. To John He sent word of His deeds and words; to Thomas He stated, "Reach hither thy finger, and behold my hands..." be not faithless, but believing" (John 20:27). Believe what He has done for you, and for others down the ages. His Word has stood the test of the centuries, and will stand the caustic criticism of others may now be casting at it. God's mercy is new each morning and is everlasting His grace is sufficient. His faithfulness will not fail. He tries His children but does not tempt them to despair. He burns the dross from their life as does a refiner of silver, but He does not abandon them. Believe His power to strengthen you. His presence to help you. His peace to keep you. His providence to care for you.

The third step from darkness of doubt to delight of faith is to believe His Word. "Faith cometh by hearing, and hearing by the word of God" (Rom. 10:17). The Lord Jesus answered the threats of doubt from the Tempter, "If thou be the Son of God..." with ringing "Thou art written" (Gen. Matt. 4:13-15). To take one's stand on the Word of God, to believe what He has promised, all appearance to the contrary notwithstanding, to be steadfast, unmovable, unshaken, to ignore the insinuations that can clever and calculated criticisms against the character of the God of all grace, is to find oneself strong in the Lord. Believe your belief that an founded upon the Word, and doubt your doubts that come from desire, despair, disappointment, or disobedience. Doubt paralyzes faith vitalizes. Doubt defeats faith triumphs. Doubt destroys faith makes alive. To the evidences that will come to your tested and trusting soul that you need be the response of "Thom

as, 'thy Lord and my God' and you will be partaker of the blessing to the unfed, and 'thou have no men, and yet believed' (John 20:28, 29).

Honest doubt, faced by the Word of God and faith, will discipline your heart and mind to bring you into deeper devotion and assurance.

Your MP
Dr. Hugh MacLure
Reports

Prime Minister Diefenbaker has announced that the Federal Government is going to propose to Parliament that a five million dollar grant be made available to finance a national physical fitness program.

The council will have as its purpose, the encouragement of amateur athletics and to that end by a system of awards for the development of physical education contribute to raising the standards of health of all Canadians.

It would help Federal grants for mental and physical health in our demanding world. I would appreciate the views and ideas of my constituents with regard to programs for physical fitness.

KNOW YOUR CANADA

Edited by the Pembina News
ANTI-SPOILS LANDINGS

WHEN WAS CANADA'S FIRST ANTI-COMBINE ACT PASSED?

In 1889, a year before the passage of the Sherman Anti-Trust Act in the U.S., Parliament passed an act to declare the law relating to conspiracies and combinations in restraint of trade, and to provide penalties for the violation of the same. "This act made it a misdemeanor to conspire, combine, agree or arrange with any other person 'unlawfully to limit 'unduly' the production or to enhance 'unreasonably' the price or to lessen competition on the production or sale of any commodity. In 1892 this act became a section of the Criminal Code and the offence was made an indictable one. Since 1900, when the word 'unlawfully' was omitted, it has remained substantially unchanged. It now constitutes section 480 of the Criminal Code.

GLECK - SCHULTE WEDDING

Mr. and Mrs. Roy Gleck Photo by Clint's Studio

The Drayton Valley United Church was the scene of a lovely morning wedding when Miss Kathleen Marie (Dolly) Schulz became the bride of Mr. Roy Gleck at 11 a.m. Saturday, September 2. The Rev. Albion Wright read the double-ring ceremony uniting the couple in holy matrimony.

The bride was beautifully dressed in a white brocade satin sheath with matching over-skirt and wore a headpiece of flower and pearl ensemble and shoulder length veil. She carried a white Bible covered with mauve with yellow center cord and wore a drop pearl, a gift from the groom.

Mrs. Twissie was organist for the occasion and soloist was Roy's cousin Dwight who sang "The Lord's Prayer".

TOASTMISTRESS MEETING

The Pembina Toastmistress Club met for their first autumn meeting at the Club Cafe on Tuesday, September 12th, at 8:30 o'clock.

The meeting followed the usual Toastmistress Club pattern. The meeting is called to order by its President. Then in invocation, a short prayer for guidance by the program chairman introducing the chosen subject for the "be-headers" of the evening - every member in turn must give her opinion on this subject. A short business meeting follows. The program must never exceed twenty minutes. After this the Topic-mistress is called for. She in turn asks those members to give two minute impromptu talks each. This is followed by the Toastmistress introducing the three

prepared speakers of the evening. They in turn give 5 - 7 minute prepared speeches. After this the members have a twenty minute break of coffee and dessert.

After coffee the program chairman asks the member evaluate to give their criticism of the different speeches. The timer then adds her report. The meeting closes with an "inspiration" on an inspiring thought read by one of the members.

At the September 13 opening meeting, however, there were no prepared speeches but all members participated in a "parliamentary skit".

The Pembina Toastmistress Club for all who are interested to attend this meeting held every

second and fourth Tuesday of the month in the Club Cafe at 8:30 o'clock. Anyone interested in further information may phone Mrs. Kerr at 542 - 3698.

LETTERS TO THE EDITOR

Friends hope to see her well again soon.

Mr. and Mrs. Henry Ryhanan visited the Nick Urchyns last week. The Ryhanans live in Edmonton. Mr. Ryhanan is with the forestry department.

Mr. Ella Parish and Mrs. Marion MacMillan entertained at the bride's home on the evening of September 1 for the Kenneth - Shapel wedding party, following the rehearsal in Drayton Valley United Church.

Mr. Konradich is the son of Mrs. Marion Konradich of Drayton Valley and Miss Shapel is the daughter of Mr. and Mrs. Constat Shapel of Tomahawk.

Scary to hear of Mrs. Robert MacMillan's long illness. But wishes for better health soon, Marion.

The vivid colours of the young football player's uniforms add a gay splash to nature's own fall tints these days, and give pleasure to the passerby.

From our vantage point, further up the hill, we take pleasure in the bright display.

The Tucker annual re-unions was held this year at the Dan Hill's farm. Eighty relatives came from far and near to enjoy an old time picnic, with games, races, and good food galore.

A couple of shrewd did little to dampen the picnic enthusiasm and everybody had a thoroughly good time.

Mrs. Woltschlagger writes that the temperature in Oklahoma, where she is visiting this summer, stays from 90 to 100 o. There had been little rain all summer.

Mrs. Woltschlagger will visit a niece in Kansas and return to Alberta about the first of October. Aboard-minded subject as her dear friend her goodbye: "Well, that be all?"

FOWLER — DAVIDSON WEDDING

Mr. and Mrs. Alvin Fowler

Photo by Carl's Studio

Marriage vows were exchanged between Miss Sharon Davidson, daughter of Mr. and Mrs. Fred Davidson, of Violet Grove and Mr. Alvin Fowler, son of Mr. and Mrs. Earl Fowler of Deadwood, Alberta, in Drayton Valley United Church at 4:00 on the afternoon of August 18th. Rev. A. Wright performed the double ring wedding ceremony. The altar was tastefully decorated with gladiolus and peonies.

The bride was beautifully dressed in floor length white embroidered net over white satin with finger-tip sleeves. She wore a crown pearl headpiece with waist length veil, around her neck the bride wore a necklace of matching pearls; she carried a bouquet of white roses.

Miss Eunice Davidson, sister to the bride, was bridesmaid. She wore a pink gossamer knee-length

dress. Her headpiece was a small pink hat with veil, and she carried a nosegay of tiny rose buds.

Standing with the groom was his bestman, Mr. Glen Kline. Ushers were Mr. Joe Kelly, cousin to the bride, and Mr. Wesley Davidson, cousin to the bride.

A reception was held in Rocky Rapids Community Hall, followed later by a wedding dance.

On Monday, August 29, another wedding dance was held in the Community Hall at Deadwood, the former home of the groom.

Following a honeymoon trip to Calgary and Banff Mt. and Mrs. Fowler are residing in Cynthia where Mr. Fowler is employed.

CIVIL DEFENCE

THE ELEVEN STEPS TO SURVIVAL.
CONTINUED FROM LAST WEEK

For example, at 10 miles from the centre of the explosion, it would take 35 seconds for the blast to reach you.

You might be injured by being thrown about by the blast, therefore keep low. The greatest danger is from flying glass, bricks and other objects. People would be injured as far away as 15 miles from the explosion. There would be few survivors within a mile or two from the centre of the explosion. The greater the distance from the centre the lower the percentage of persons killed and injured.

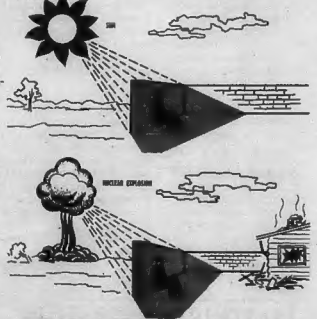

The kinds of damage that the blast could do to buildings are: complete destruction to all buildings up to 9 miles from the centre of the explosion; damage beyond repair to buildings 9 to 15 miles and the buildings would have to be torn down; major repairs required to buildings 15 to 10 miles before they could be occupied; light to moderate damage to buildings 10 to 15 miles and they could be occupied during repairs.

A 20 megaton bomb increases the approximate ranges of damage described above to 8, 8.16 and 24 miles.

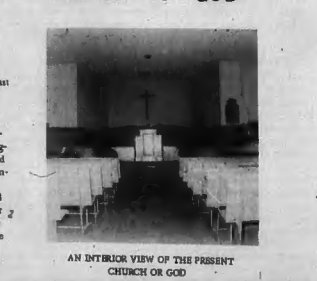

These are approximate distances, as the strength of buildings is not uniform. Reinforced concrete buildings are the most blast resistant; wood frame structures the least. In some areas 4 miles away from the explosion, concrete buildings might be repairable; white wooden frame buildings would be totally destroyed. Buildings supported by steel columns.

Here are some examples of the predictable effects on unprotected skin of the heat flash of a 5-megaton weapon exploded on a clear day: sunburn types of burns up to 23 miles from the explosion; skin is blistered up to 18 miles from the explosion; exposed skin is badly burned up to 15 miles from the explosion. The presence of fog, haze and smoke in the air can reduce the effects of the heat flash. Explosion of the weapon in the air rather than on the ground will be more likely to produce a greater number of serious burns through the heat flash.

Clothing will give some protection. A substantial shield between you and the light will give protection against burns from the heat flash.

CHURCH OF GOD

AN INTERIOR VIEW OF THE PRESENT CHURCH OF GOD

guides and vacated with stone or brick are not as blast resistant as reinforced concrete buildings. Windows, of course, are very vulnerable and are apt to be blown in as far away as 35 miles from the explosion.

RADIATION:

A nuclear explosion causes both immediate radiation and residual radiation. Immediate radiation is given off at the time of the explosion. It is dangerous only within two or three miles. If you were near the explosion without adequate protection, you would be seriously affected by this immediate radiation in addition to being killed or injured by the blast or fire.

Residual radiation is that given off by the radioactive particles left as 'fallout' after the explosion. The danger from fallout would be so great and widespread that it is discussed separately in Step 2.

CEMETERY COMMITTEE

A Cemetery Committee was formed recently to locate a site for a new cemetery. The first meeting of the new group was held in the Drayton Valley Town Council Chambers with representatives from a number of churches present.

Present for the first meeting was Doug Erickson, Tom Johnson, Ervin Rendleish, Adam Eichhart, George Lockie, A. Playford, Fred Kastnermaker, Jack Heyland, Rev. A. R. Wright, Rev. R. Brown, and Rev. J. Steyer.

Nominated to head the group was chairman was Jack Heyland; secretary was A. Playford. A committee was set up to look for possible sites, and make preliminary investigations with the S.D. for the possibility of finding Crown Land for the location. The committee set up for that purpose was Jack Heyland, Fred Kastnermaker, Doug Erickson, L. Lemmermeyer and Ervin Rendleish.

Tom Johnson was appointed to contact two or three other church groups who were not present at the meeting and let them know when the next meeting time will be. It was decided to meet again next Monday night at the same place. The chairman and the secretary were selected to meet with the Town Council on their next meeting.

From Scoop's Notebook

Mr and Mrs Ambrose Sanderlin, of Orange, California, were Drayton Valley visitors when Mr Sanderlin came up to visit his brother, Ed Sanderlin.

HOW LAZY CAN YOU GET? DEPT. Stu. Luman left for some big game hunting. Which is all very good and according to "Hoyle" But Did anyone ever hear of a man on a hunting trip taking along a power saw to saw his firewood?

Visiting in Violet Grove and D. V. area recently was Miss Eunice Davidson, now of Vernon, B.C., who came for her, sister Sharon's wedding.

After the big show was all over, after the crowd had been placed on her head "in the close of the big Gymnasium Show in Edmonton on Labor Day," Queen's Lucille Brown, Drayton Valley's pretty winner of the Queen contest, was on her way home from the big city when the car in which she was riding was rammed in the side by another car which reportedly went through a red light. Lucy emerged from the accident with a beautiful big "blow" of a black eye.

She seemed to "blow" for the rest of the week, but she is better at her post duty in the postoffice again, still with some evidence of the accident showing.

"Do you think Lucy will make Jim a good wife?" "I don't know, but she's a beautiful girl and a good husband if she gets the chance."

What's wrong with the apple? Adam replied, "I'll bite."

A picture of a fine chicken, these things are a fine chicken, makes a fine spread for the table. This is the spread of the chicken.

DRIVING RANGE OPENED

Pembina Golf and Country Club got away to a good start this week when Mr. Ed. Featherstone got the driving range ready for use, with 6 tees in the driving range now open for use. The golf club is the result of a lifelong ambition.

In February of this year Mr. Featherstone formed a limited company. At the present time the development is being financed by himself but he expects that before the golf links, club house, etc., are fully completed he will sell shares and invite the public to participate in the development of the project. Interest in golf among all kinds of folks is increasing rapidly and it is becoming a very popular pastime, with women as well as with men. The whole project, when completed, will be a great asset to the community. Plans call for the first half of the eighteen hole course to be completed in time for next year's golf season, with nine holes ready for

play. The driving range is available now from noon till dark. Projected for next year's construction as well as the first nine holes is a residence for Ed. and his family. The Featherstones hope to have the first section of the golf proposed club house operating this fall. That would include a small coffee shop and club rooms that could be used throughout the winter. The second nine holes of the course will be landscaped and made ready during 1962, for use the following year. It is expected that the clubhouse will be completed in 1962.

Mr. Featherstone will retain his position as manager of the Electrical Contracting and Machinery and will retain the services of someone to run the club. The overall management of the club, however, will be under Ed's supervision. He feels that Drayton Valley has an unusual number of young couples that will support golf club activities and as

there is no similar club any closer than Edmonton, it will fill a recreational need for them; the club is also so close in to town that teenagers can reach it readily.

The fairways are being seeded with a mixture of Kentucky Blue grass and creeping Red fescue. The greens are to be planted with Pendergast Bent Grass; a very excellent green grass, for which is being brought in from California.

The seeding is under the advisement of Professor Knowles, of the University of Alberta. Five holes of the first nine holes are close enough to the creek that they can be watered from that source. The other four holes will be watered from a well. The well has already been drilled and an adequate supply of water has been found. The course is naturally wooded and in landscaping as many trees as possible have been left to enhance the natural beauty of the course.

Rotary District Governor Visit

ROTARY CLUB TO WELCOME
DISTRICT GOVERNOR

The Rotary Club of Drayton Valley on Friday, September 22nd will be host to Joe S. Low, Governor of District 538 of Rotary International, who is making his annual official visit to each of the 35 clubs in Alberta and Western Saskatchewan. He will address the local Club and will confer with President Sid Mitchell, Secretary Ed. Featherstone and Committee Chairman on Rotary administration and service activities.

Governor Joe is President of Cardston Motors Ltd., in Cardston, Alta., and is a charter member and Past President of the Cardston Club. He has been in the garage business since 1917 and has expanded and enlarged his business to meet the demands of the motoring public, and with the cars and trucks handles the Ford line of Farm Machinery. Governor Joe, besides his business, which now includes farming and ranching, has found time

to render a great deal of service to the Community and Church, serving in many years on the Town Council, three terms as Mayor, on the Hospital Board, and also on Irrigation Boards while the District Irrigation system was building. He was elected District Governor of Rotary International for 1961 - 1962 at Rotary's 52 Annual Convention in Tokyo, Japan, last May. He is one of the 289 District Governors supervising the activities of more

CHAMBER OF COMMERCE DINNER

Chamber of Commerce members and friends are urged to keep the date open, Wednesday, September 27th, at 7:30 in the evening for the Chamber of Commerce and recreational meeting to be held in the Cardium Room.

agenda. As stated last week, Mr. Reg. Clark, secretary-manager of the Alberta Chambers of Commerce will be present as guest speaker. Mr. Clark's subject will be "The Purpose of the Chamber of Commerce".

June has lined up a fine class menu including club steaks and a very good program is on the

It is hoped that this meeting will prove the springboard for increasingly active participation by all community-minded citizens. There remains much work to be

done along the promotional line by a group such as the Chamber of Commerce. An active Chamber of Commerce has often been called the key to a successful community. Let us make sure that we forge that key and prosper, as a community.

Tickets for the Banquet are on sale by C. of C. members. Price is \$2.50 each, which will provide an excellent meal as well as a social evening.

District Personalities

EDWARD ALBERT FEATHERSTONE A.I.E.E. Photo By Cur's

Ed Featherstone was born in Winnipeg, where his father was a building contractor. He attended grade school and high school in Winnipeg and then served his electrical apprenticeship in Winnipeg. He went to Vancouver in the late 20's where he went to work for the C.P.R. as an electrician. He took up Electrical Engineering while in Vancouver. He then went to work in the mining industry, with B.C. Nickel Mines. His company sent him north to the Yukon, where he worked on the gold dredges during the 30's, ending up in Dawson City, Yukon where he stayed until the war broke out.

In 1942 he came out by way of dog-team via Ahlaviak, N.W.T. He then joined up with the R.C.A.F. in mechanical and electrical maintenance. While with the R.C.A.F. he saw service with the Western Command, all over western Canada from Winnipeg to Victoria.

Following his discharge from the airforce in 1946 he took up Mechanical Engineering with the Canadian Institute of Technology and later became a member of the American Institute of Electrical Engineers and an associate member of the American Institute of Mechanical Engineers. Until 1959 Ed. spent most of his time in the East, in electrical and mechanical

work, except for a short time in the mines of the northwest. In 1951 he joined Cypress Copper Mines Company and was sent by his company to the Middle East, the Island of Cyprus where the company had large coppermining interests. Mr. Featherstone was Electrical and mechanical superintendent. He returned from Cyprus to Canada in 1957 and came west to begin his work in the oilfields in 1958, coming to Drayton Valley as branch manager for Electrical Contracting & Machinery Co. Ltd. whose head offices are in Calgary, in July of 1959.

While in the Middle East he was instrumental in having a country club with golf links built. It had (Cont' on page 3, Col. 5)
